

Safety Recommendation Number:	IRLD2013009
AAIU Event Reference:	IRL00912124
AAIU Report Number:	2013-006
Date of Publication of Safety Recommendation:	30/04/2013
Safety Recommendation Status:	Implemented, closed

Safety Recommendation:

GASCI should consider the development and dissemination of safety information for the general aviation community specific to highlighting the potential risks associated with operating to and from airstrips.

Response:

The GASCI Chairman informed the Investigation that he accepted the recommendation that GASCI help develop some awareness material for the Irish GA community to highlight the hazards of strip flying.

GASCI informed the AAIU by letter dated 19 December 2013 that it has issued a Safety Leaflet for the general aviation community highlighting the risks of flying to and from airstrips. This safety leaflet will be widely distributed within the general aviation community. It has been distributed to GASCI members for onward dissemination within their clubs and is also available via both the GASCI website www.gasci.ie and the GASCI Facebook page <https://www.facebook.com/gasci.ireland>. Additionally, GASCI is producing hard copies for distribution to flying clubs in Ireland.
