

<b>Safety Recommendation Number:</b>	IRLD2009013
<b>AAIU Event Reference:</b>	IRL00908014
<b>AAIU Report Number:</b>	2009-018
<b>Date of Publication of Safety Recommendation:</b>	23 September 2009
<b>Safety Recommendation Status:</b>	Closed

**Safety Recommendation:**

The Irish Aviation Authority issue a Notice to maintenance organisations with regard to the control of tools and materials used during maintenance, in accordance with the requirements of JAR 145.

**Response:**

The IAA informed the AAIU by letter dated 10 March 2010 that: The EASA requirements for the maintenance of aircraft including EASA Part 145 contain requirements for the control of tools and materials used in maintenance. Notwithstanding these adequate requirements, the IAA will issue a reminder to owners, operators and maintainers regarding the control of tools and materials by way of Aeronautical Notice.

**AAIU Comment:**

The AAIU considers this Safety Recommendation as 'Closed'
