AAIU Event Reference:	IRL0024023
AAIU Report Number:	2026-007
Date of Publication of Safety Recommendation:	26 June 2026
Safety Recommendation Status:	Implemented, closed

Safety Recommendation:

The National Flight Centre should review its record keeping and supervision practices to ensure that all required records and related course administration is completed as and when required, and that advancement milestones are accurately monitored and recorded.

Response:

On 28 July 2026, NFC advised the AAIU that:

> "*The National Flight Centre has concluded a review of its record-keeping, course administration and supervisory processes to ensure that all required training records are completed accurately and contemporaneously.*
>
> *The review included the following actions:*
>
> • *A review of student training record-keeping procedures to confirm that all required documentation is maintained in accordance with the Approved Training Organisation's procedures and applicable regulatory requirements.*
>
> • *The introduction of additional supervisory oversight to ensure that student progress and advancement milestones are accurately monitored, verified and appropriately documented.*
>
> *These measures strengthen governance, improve the integrity of training records and provide greater assurance that student progression is effectively monitored throughout the training programme.*"

AAIU Comment:

The AAIU notes NFC's response of 28 July 2026, and considers the status of this Safety Recommendation to be "*Implemented, closed*".
